

Disphyma crassifolium

Disphyma crassifolium

Botanical Name: Disphyma crassifolium
Common Names: Rounded Noon Flower, Round Leaf Pig Face, Succulent,
Native: Yes
Foliage Type: Evergreen
Plant Type: Groundcovers, Succulents & Cacti
Plant Habit: Dense, Prostrate, Spreading

Description:

Tough, native creeping succulent with trailing stems that root at each node along the stem. Round shaped, fleshy smooth leaves quickly form a dense groundcover. Pink daisy-like flowers are produced in Spring and Summer. This attractive groundcover is very salt tolerant and great for binding coastal wind erosion. Ideal for use in gardens with coastal exposure, rockeries and low maintenance landscapes. All parts of this plant are edible.

Family Name: Aizoaceae

Origin: Australia

Characteristics:

Foliage Colours: Green

Flower Colours: Pink

Flower Fragrant: No

Flowering Season: Spring, Summer

Fruit: Yes

Requirements:

Growth Rate: Fast

Maintenance Level: Low

Water Usage: Low

Tolerances:

Drought: High

Frost: Moderate

Wind: Moderate

Mature Height: <15cm **Position:** Full Sun, Semi Shade

Mature Width: 1-2m **Soil Type:** Sandy, Well Drained

Landscape Use(s): Balcony / Roof, Borders / Shrubbery, Bush Tucker, Coastal Garden, Courtyard, Edible Garden, Embankment, ErosionControl, Foliage Feature / Colour, Formal Garden, Groundcover, Habitat, Lawn Alternatives, Low Water Garden, Mass Planting, Rockery, Tropical Garden, Verge

Pest & Diseases:

Generally trouble free, Scale

Plant Care:

TBA
