

Lomandra affinis cylindrica Fibre Optic

Lomandra affinis cylindrica Fibre Optic

Botanical Name:	Lomandra affinis cylindrica Fibre Optic
Common Names:	Mat Rush,
Native:	Yes
Foliage Type:	Evergreen
Plant Type:	TBA
Plant Habit:	Clumping, Rounded, Tufting

Description:

Fibre Optic has quickly become a favourite with its soft foliage posing no threat to the dedicated gardener or passers by, unlike many Lomandra varieties that produce stiff foliage and long flower spikes. It bears small pale yellow flowers that don't grow large spikes and stand out beautifully against the lime-green foliage. Only growing to about 60cm or so high, it's a well suited option for smaller, low-maintenance gardens or mass plantings in larger gardens for a more dramatic effect.

Mature Height:	60cm-1m	Position:	Full Sun
Mature Width:	30-60cm	Soil Type:	Loam, Sandy, Well Drained

Family Name: Asparagaceae

Origin: Australia

Characteristics:

Foliage Colours: Green

Flower Colours: Yellow

Flower Fragrant: No

Flowering Season: Spring, Summer

Fruit: Yes

Requirements:

Growth Rate: Moderate

Maintenance Level: Low

Water Usage: Low

Tolerances:

Drought: High

Frost: Moderate

Wind: Moderate

Landscape Use(s): Bird Attracting, Borders / Shrubbery, Costal Garden, Courtyard, Foliage Feature / Colour, Formal Garden, Habitat, Low Water Garden, Mass Planting, Rockery

Pest & Diseases:

Generally trouble free

Plant Care:

TBA
