

Rosa Apricot Nectar

Rosa Apricot Nectar

Botanical Name:	Rosa Apricot Nectar
Common Names:	Floribunda Rose,
Native:	No
Foliage Type:	Deciduous
Plant Type:	Climbers, Roses, Shrubs
Plant Habit:	Rounded, Upright

Description:

Floribunda Roses are a modern breed of rose that have been developed by crossing them with a Hybrid Tea. They have a cluster of several flowers on each stem that vigorously grow throughout a long flowering season to give a magnificent floral display to the landscape. They have a high resistance to diseases which makes them a great low maintenance rose. Rosa Apricot Nectar have double apricot velvet like blooms that have a strong fruity fragrance. They have contrasting dark green glossy foliage. Also available as a standard.

Family Name: Rosaceae

Origin: Europe

Characteristics:
