### Description:

Lomandra Mist has dark blue-grey leaves that weep gracefully back to the ground. In summer fragrant small yellow flower spikes emerge from reddish-brown buds. Mist grows to a height of 0.3 - 0.5m and has a spread of 0.3 - 0.5m making it excellent as a specimen plant; or it can also be planted on mass for erosion control. This Lomandra is excellent to use for contrast low level plantings where height restrictions are required in urban streetscapes. Mist can be used to create borders; or for under storey planting in the home garden.
