

Cedrus atlantica

Cedrus atlantica

Botanical Name:	Cedrus atlantica
Common Names:	Atlas Cedar, Conifer,
Native:	No
Foliage Type:	Evergreen
Plant Type:	Trees, Conifers
Plant Habit:	Conical, Upright

Description:

A medium to large evergreen feature tree. It can reach a height of up to 30m tall once established depending on growing conditions. It has a broadly conical habit with mid green coloured foliage and attractive pine cone seeds. Also available is a blue Glauca form and a fastigate form.

Mature Height:	>25m	Position:	Full Sun
Mature Width:	4-10m	Soil Type:	Well Drained

Landscape Use(s): Feature, Formal Garden, Wind Break

Pest & Diseases:

Generally trouble free

Cultural Notes:

A low maintenance tree that when planted in the right conditions should thrive. Requires a large garden setting with fertile well drained soil. Apply fertiliser in Spring and keep regular watering during hot months especially while establishing.

Plant Care:

Mulch well

Family Name: Pinaceae

Origin: Europe

Characteristics:

Foliage Colours: Green

Flower Colours: Insignificant

Flower Fragrant: No

Flowering Season: N/A

Fruit: Yes

Requirements:

Growth Rate: Moderate

Maintenance Level: Low

Water Usage: TBA

Tolerances:

Drought: TBA

Frost: High

Wind: High
