

Helleborus glandorffensis HGC Ice N Roses Red

Helleborus glandorffensis HGC Ice N Roses Red

Botanical Name: Helleborus glandorffensis HGC Ice N Roses Red

Common Names: Winter Rose, Lantern Rose, Hellebore,

Native: No

Foliage Type: Evergreen

Plant Type: TBA

Plant Habit: Clumping, Upright

Description:

Long lived winter flowering perennials that will grow to approximately 30cm tall by 30cm in width. Loved for their showy single dark-red winter flowers and handsome glossy divided leaves. Their foliage is evergreen and the main flowering period is from June to September. Ideal for under and around deciduous trees and shrubs.

Family Name: Plantaginaceae

Origin: Europe

Characteristics:

Foliage Colours: Green

Flower Colours: Red

Flower Fragrant: No

Flowering Season: TBA

Fruit: Insignificant

Requirements:

Growth Rate: Moderate

Maintenance Level: Medium

Water Usage: Medium / Moderate

Tolerances:

Drought: Medium / Moderate

Frost: High

Wind: High

Mature Height: 30-60cm **Position:** Full Sun, Semi Shade

Mature Width: 30-60cm **Soil Type:** Any, Clay, Loam, Sandy, Well Drained

Landscape Use(s): Borders / Shrubbery, Coastal Garden, Courtyard, Cut Flower, Formal Garden, Mass Planting, Container / Pot, Under Trees

Pest & Diseases:

Aphids, Generally trouble free

Cultural Notes:

Prefers a semi-shaded to full sun position. Best in well-drained fertile garden soil that has had organic matter added. Remove old foliage and fertilise in Autumn. Mulch in spring. Spent flowers can be removed prior to seed dropping in mid-Spring if you don't want lots of seedlings popping up the following Winter. Caution - harmful if eaten / skin irritant.

Plant Care:

Annual slow release fertiliser, Keep moist during dry periods, Liquid feed, Mulch well
