| <b>Plant Habit:</b>    | Dense, Rounded, Shrub Like          |

### Description:

The carpet of foliage is massed with bunches of pink flowers from autumn to summer, and it thrives in full sun and well drained soils, especially by the coast. A light trim over summer is all it needs to keep it fresh and vigorous. It's woolly enough to cuddle, and so are the bears it helps. A donation to Free The Bears Fund Inc is made from every one of these lovely plants sold, so not only will you 'feel good', you are actually 'doing good' when you plant this one. You're doing something good for the environment too, as the honeyeaters also love Woolly Bear® Hero™.

**Family Name:** Proteaceae

**Origin:** Australia

### Characteristics:

**Foliage Colours:** Green, Grey

**Flower Colours:** Pink, White

**Flower Fragrant:** No

**Flowering Season:** Autumn, Spring

**Fruit:** Insignificant

### Requirements:

**Growth Rate:** Moderate

**Maintenance Level:** Low

**Water Usage:** Low

### Tolerances:

**Drought:** High

**Frost:** Moderate

**Wind:** Moderate

**Mature Height:** 30-60cm **Position:** Full Sun, Semi Shade

**Mature Width:** 30-60cm **Soil Type:** Any, Well Drained

**Landscape Use(s):** Bird Attracting, Borders / Shrubbery, Coastal Garden, Habitat, Hedging / Screening, Low Water Garden, Mass Planting, Container / Pot
