|----------------------|---------|-------------------|--------------|

Landscape Use(s): Borders / Shrubbery, Courtyard, Cut Flower, Feature, Formal Garden, Fragrant Garden, Low Water Garden, Mass Planting, Rockery, Container / Pot

Pest & Diseases:

Aphids, Powdery Mildew, Scale, Sooty Mould, Thrips

Cultural Notes:

Plant in well drained soil that has a high amount of organic matter. When planting ensure the grafting bud is above soil level. Mulch with a organic mulch. Fertilize regularly throughout the growing season with a rose specific fertilizer. Pruning can be done regularly throughout the growing season by removing spent blooms which encourages repeat flowering. Hard pruning is undertaken in winter once the plant has gone dormant. Prune to a vase shape to increase air movement within the plant to reduce the occurrence of pests and diseases.

Plant Care:

Annual slow release fertiliser, Keep moist during dry periods, Mulch well
